# Arizona Department of Forestry and Fire Management Radio Communications Notice

**Date:**

5, April, 2017

**Notice Number:**

17-002

**Subject:**

***New Radio Guide Version 3.0 (5, April 2017)  
This is the latest version- Use this one. Version 2 is obsolete.***

## **Radio Communications Guide Version Change**

**Latest version is:**

**3.0 (5, April 2017)**

*We encountered some important changes in Version 2.0 of the ADFFM Radio Communications and Channel Plan Guide. These important changes involved incorrect tone numbers for those groups that are "Tone Pick enabled" that appear on the Radio Channel Plan portion of the Guide. Please use the latest Version, 3.0 (April 5, 2017).*

*The changes involved tone number changes on the "Summary Pick List" and "individual group pick lists" that were part of the Radio Channel Plan portion of the guide. Version 3.0 (5, April 2017) was created to incorporate these changes.*

*This latest version 3.0 can be found at:*

*<https://dffm.az.gov/sites/default/files/documents/files/2017%20ADFFM%20Radio%20Communications%20Guide%20and%20Channel%20Plan.pdf>*

*Or*

*<https://dffm.az.gov/fire/dispatch> and navigate to the communications documents.*

*Please use and reference Version 3.0 in any and all communications plans or briefings involving ADFFM portable or mobile radio use.*

*Questions: Please feel free to call the Arizona Dispatch Center -1-800-309-7081*

∞

*It is the responsibility of each radio user to know and understand the operation of their two-way radio communications equipment including the Communications Plan as YOUR Health and Safety AND that of OTHERS may depend on it"*
